<b>Particulars</b>	<b>NPR in 'Million'</b>
Core Capital	22,132
Supplementary Capital	21
<b>Total Qualifying Capital (Total Capital Fund)</b>	<b>22,153</b>

#### **VI. Capital Adequacy Ratio**

- 296.19%

#### **VII. Summary of Bank's internal approach to assess the adequacy of capital to support current and future activities, if applicable:**

The Bank has formulated and implemented the "Internal Capital Adequacy Assessment Process 2018" (ICAAP 2018) which has been approved by the Board of Directors. The ICAAP 2018 is a system of sound, effective, and complete strategies and processes that allow the Bank to assess and maintain, ongoing basis, the amounts, types and distribution of internal capital that the Bank considers adequate to cover the nature and level of risk to which the Bank is or might be exposed to.

Internal Capital Adequacy Assessment Process (ICAAP) shall also include requirement to have robust governance arrangements, efficient process of managing all material risks and an effective regime for assessing and maintaining adequate economic capital at the Bank where economic capital (economically needed capital) refers to the amount of capital required for the Bank's business operations and for financing the associated risks.

ICAAP 2018 shall provide policy and procedural guidelines for the calculation of internal capital adequacy by prescribing appropriate methodologies, techniques and procedures to assess the capital adequacy requirements in relation to the Bank's risk profile and effectiveness of its risk management, control environment and strategic planning.

The Board shall be primarily responsible for ensuring the current and future capital needs of the bank in relation to strategic objectives. The management shall review and understand the nature and level of various risks that the bank is confronting during different business activities and how this risk relates to capital levels and accordingly implement sound risk management framework specifying control measures to tackle each risk factor.

The long-term plans and strategies of the bank is generally guided by Annual Budgets/ Operating/ Tactical plans. To ensure that the Bank's capital adequacy commensurate to demand of the capital required by the business targets, the Management and the Board prudently and proactively engage on ongoing process of capital and risk assessment, stress testing and scenarios testing, monitoring and reporting as per the ICAAP

2018.

The Bank also formulates and implements “Stress Testing” mechanism in order to assess the vulnerability of the Bank under various stress situations typically, application of “what-if” scenarios, especially in the problematic identification of low frequency but high severity events and identifying expected and unexpected losses. It focuses on capturing the impact of large, but still plausible events and understanding the overall risk profile in a coherent and consistent framework, including impact analysis on earnings, solvency and liquidity.

Stress testing of the Bank also includes macroeconomic environment of the country and its impact in the Bank’s business as well as entire key risk areas and functions of the Bank as far as data availability and resources permit those having ultimate impact on the capital adequacy of the Bank.

A formal monitoring and reporting mechanism have been established to provide the senior management necessary information on the risk profile, trends, and the capital requirements as per ICAAP 2018. Such reports are being prepared on a monthly and quarterly basis and circulated to relevant business units/departments, Integrated Risk Department (IRMD), and tabled in Assets Liability Committee (ALCO) meeting. Further quarterly reports are presented to the Risk Management Committee and the Board for review and discussions.

## 2. Risk Exposure

**3. Risk Management Function**

The Bank is vigilant to the risk factors and has adequate systems/ procedures to assess the risks associated with day to day business. The Bank takes risk considering the risk appetite of the Bank and after assessment of strengths and weaknesses in the internal and external environment. Periodic reviews are done in order to explore every possibility to gain insight on various risk factors and in order to find the best ways to mitigate the risk associated.

In order to assess and manage the risk of the Bank, the organizational structure of the bank consists of Integrated Risk Management Department consisting of Risk, Compliance, CAD & Reconciliation Units.
